1: Start with a clean face. Apply an even coat of foundation, preferably with no SPF, all over the face and neck. Apply an even layer of face powder to set the foundation in place. Finish off with blush on the apples of the cheeks blending it backwards towards the hairline.

2: Apply an even layer of brown eyeshadow on the eyelid and then repeat the process with the gold eyeshadow. Next apply the cream colored eyeshadow on the brow bone. Finish with an even coat of black mascara.

3: To finish off the look, apply an even coat of red lipstick to the lips and let dry!

Hair Tutorial:

For our performance hair we always part the hair on the left side of the head. The hair should be slicked back with a comb into a low pony that is based in the middle of the head. Finish by putting in the hair piece with the silver side up and an even coat of hairspray all over the head!
